Join Us as a Partner in the Cybersecurity Ambassador Program

Empower Communities and Shape Cybersecure Futures

The Cybersecurity Ambassador Program, established under the Iowa Cyber Hub at Iowa State University, is dedicated to developing a robust network of informed digital citizens. We invite organizations to partner with us in a non-financial capacity to broaden our impact and enhance cybersecurity literacy across communities.

Why Partner with Us?

- **Community Impact:** Help us expand our reach, bringing vital cybersecurity education to diverse audiences, from young students to professionals.
- **Influence Curriculum:** Play a role in shaping our educational content and training materials, ensuring it meets industry and educational standards and remains relevant.
- **Talent Pipeline:** Access a pool of engaged, skilled individuals who are leaders in cybersecurity, enhancing your recruitment efforts.
- **Recruiting Chapters:** Help us grow by identifying and recruiting new chapters across schools, community colleges, and local organizations.
- **Visibility and Branding:** Increase your visibility as a committed participant in a critical cause, aligning your brand with innovative community service.
- **Mentorship Opportunities:** Provide mentorship and guidance to our chapters, sharing expertise and practical knowledge to foster skill development.

Additional Partnership Opportunities:

- **Event Collaboration:** Work with us to host or sponsor workshops, seminars, and other educational events that promote cybersecurity awareness and skills.
- **Content Collaboration:** We invite you to share your public cybersecurity content, which we can host on our dedicated platforms, extending its reach and impact.
- **Professional Development:** Offer workshops, webinars, or courses to ambassadors, enhancing their knowledge and skills in cybersecurity.

Join Our Effort: Partnering with the Cybersecurity Ambassador Program provides a unique opportunity to engage in meaningful community service, helping to build a safer, more secure digital landscape. Through education, advocacy, and direct engagement, we aim to empower individuals and communities to protect themselves in an increasingly digital world.

Contact Us: To explore partnership opportunities or learn more about the Cybersecurity Ambassador Program, please visit www.iowacyberhub.org/ambassadors or contact us directly at cyio@iastate.edu. We can create a resilient digital ecosystem that nurtures cybersecurity-savvy citizens and professionals.
